Subject: Re: Letter

Sounds good Sherrie.
No apology necessary.
Thank you for all you have done with this case, its been a tough one!

Good Morning Ex. 6 PP / Ex. 7(C)

Unfortunately I cannot add your name to the letter, but please keep in mind that this letter is to get them to come into EPA to speak with us about settlement. I apologize for not getting your information into the letter, but to do that would have delayed the letter. There are many checks and balances that have to be done when taking legal enforcement action against a company. I can add your name to the final settlement agreement and will add your information to the presentation and settlement discussions with the company. It adds evidence that supports our case for penalty and since there was direct impact to human health we have a stronger position to penalize the company for applying a pesticides in a manner that is inconsistent with the label directions. Please feel free to call me anytime to discuss more or inquire where we are at in the process. Again, please accept my apology for not including your information. We usually do not include personal information on complainants (i.e. names, addresses, etc.), so this case is different than most.

Hello sherrie this is Ex. 6 PP / Ex. 7(C) the third girl affected by the presto x sprays along with Ex. 6 PP / Ex. 7(C) I hope all is well!

I just had a concern i was hoping you could help with.
I was just made aware my name did not appear on the letter of charges issued by your office and instead, the letter specifically lists only 2 injured individuals rather than 3 and the letter was not cc'd to me so my name does not appear on it anywhere as one of the injured. Can you adjust this to reflect myself as one of the injured as I've provided you documentation along with Ex. 6 PP / Ex. 7(C) and my doctors and injury cases are just as dependent on the release of this letter and they too have been waiting for this report to be released for quit some time to continue pursuit.

Thank you and thank you for all your help and work on this!
